KwikVault mini
wall mount installation instructions

KwikVault™
mini

Package Contents:

(1) Wall Mount
(4) Mounting Screws
(1) Thumb Screw
(1) Instruction Manual

WALL MOUNT ASSEMBLY

1. Place the KwikVault mini mounting bracket in the desired location. Secure the KwikVault mini mounting bracket by using the 4 screws (included) in the 4 holes indicated in Figure A.

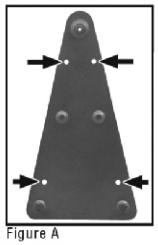

Figure A

2. Once the wall mount is securely affi xed to the wall, place the KwikVault mini unit onto the wall mount by inserting the two lower hooks on the wall mount into the two lower holes of the KwikVault mini as shown in Figure B.

Figure B

3. With the KwikVault mini open, align the center top hole with the top hole on the mounting bracket and use the thumb screw (included) to secure the top of the unit as shown in Figure C.

Figure C

WALL MOUNT DISASSEMBLY

1. Remove the Thumb Screw as shown in Figure D.

Figure D

2. Once the thumb screw has been removed, gently lift the unit off the two lower hooks as shown in Figure E.

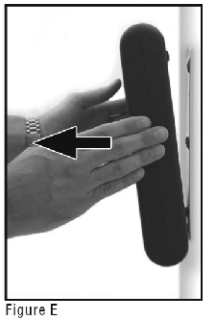

Figure E
